BROKER PARTNER PROGRAMME | NEW IN INDIA

Sell Rent Manager.
Earn on every sale.

You already know room and building owners. Now give them a smart app that manages rent from the phone, and earn a fixed commission each time an owner buys.

LOW PLAN	MID PLAN	HIGH PLAN
You earn	You earn	You earn
₹500	**₹700**	**₹1,099**
per sale | owner pays ₹3,999	per sale | owner pays ₹6,999	per sale | owner pays ₹11,999

Show the app on your phone. Owners understand it in 2 minutes.

Join as a partner on WhatsApp +91 82491 99655

Why owners say YES

Every owner has the same headache. This app is the medicine. Use these points.

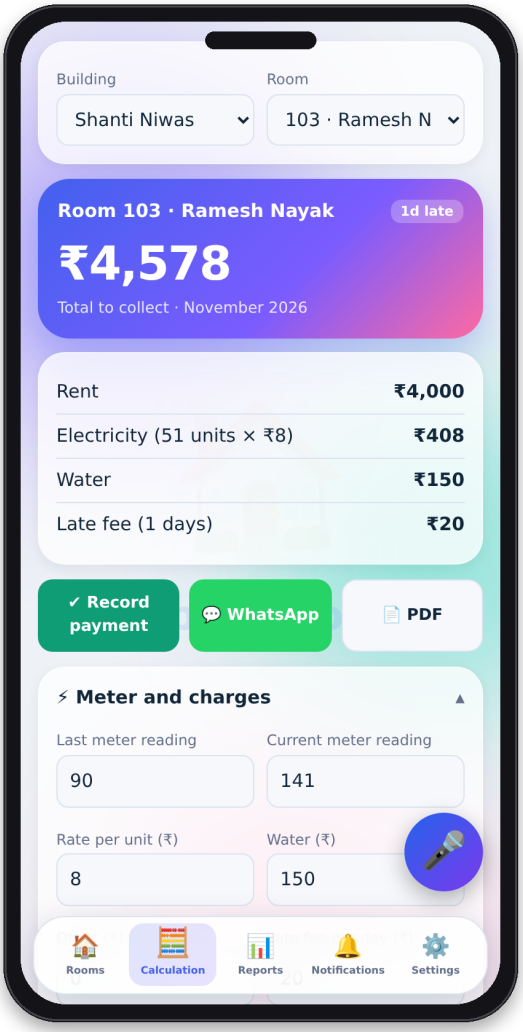

1 **"Who has not paid?"**
Green, red and grey rooms show it in one look. Red means late.

2 **"I hate calculating electricity."**
Enter the meter reading. Rent + electricity + water + late fee is added automatically.

3 **"Tenants make excuses."**
Every payment is saved with Cash / UPI and reference. Receipt PDF goes on WhatsApp.

4 **"I can not type well."**
Press the mic and say "Room 5 balance". The app answers in voice.

5 **"Is my data safe?"**
Everything stays on the owner's own phone, locked with his own password.

Your 30 second pitch

"Uncle, do you still write rent in a notebook? This app shows who paid and who is late in one look, makes the electricity bill by itself and sends the receipt on WhatsApp. It speaks Odia and Hindi, and you can even talk to it. All your data stays on your own phone. Launch price starts at ₹3,999."

Plans and your commission

Every plan has the full app. The owner picks by number of rooms. Bigger plan, bigger commission.

	LOW	MID (MOST POPULAR)	HIGH
	~~₹6,999~~ ₹3,999	~~₹11,999~~ ₹6,999	~~₹19,999~~ ₹11,999
	You earn ₹500	You earn ₹700	You earn ₹1,099
Rooms	Up to 10	Up to 30	Unlimited
Full app: bill, alerts, reports	✓	✓	✓
Photos, documents, PDF, WhatsApp	✓	✓	✓
Voice assistant, 13 languages	✓	✓	✓
Room QR, many buildings, password	✓	✓	✓

What can you earn? (examples only)

₹5,000	₹7,000	₹10,990	₹8,198
10 sales of LOW	10 sales of MID	10 sales of HIGH	5 LOW + 5 MID + 2 HIGH

Examples show how commission adds up. They are not a promise of income.

How it works

1 Register
Message us on WhatsApp and say you want to be a partner.

2 Show
Show the app and this guide to owners you know.

3 Earn
When the owner buys, you earn the commission for that plan.

Commission payment details are confirmed with you on WhatsApp when you register.

How Rent Manager compares

An honest look: notebook, one popular cloud rent app, and Rent Manager.

	Notebook / Excel	RentOk (cloud app)	Rent Manager
Where your data lives	Paper, or one computer	Company's cloud servers (web and app)	Only on your own phone
Price	Free, but costs your time	Monthly subscription, reported ₹25 to ₹100 per bed	One plan price, not per bed. From ₹3,999 (launch)
Languages	Your own	English and Hindi	13, including Odia and Hindi
Voice assistant	No	Not mentioned in public info	Yes. Press the mic and speak
Daily records offline	Yes	Needs internet (cloud based)	Yes. WhatsApp and voice need internet
Online rent payment, tenant e-KYC, e-sign	No	Yes	Not included. Keeps the app simple
Best for	Only 1 to 3 rooms	Large PGs and hostels that want online payment and KYC	Room and building owners who want simple, private and in their language

Competitor details come from public sources (Capterra and RentOk's own website), checked on 2 November 2026. They can change.

RentOk is a trademark of its owner. RB Technologies is not connected with RentOk. Rent Manager does not collect online payments or do e-KYC.

Trust: data stays with the owner

Owners ask about safety first. Give them this clear answer.

Your data. Your phone. Your control.

- ✓ **Saved only on the owner's phone**
  No sign-up, no account, no cloud. Tenant details never leave the phone.
- ✓ **We cannot see it**
  The app has no server of ours that stores rent records.
- ✓ **Locked with his own password**
  Only the owner opens the app. Password is stored in scrambled form.
- ✓ **Owner decides what to share**
  A tenant gets only the bill or receipt the owner sends.

Questions owners will ask

Does it work without internet?
Daily records, bills and receipts work on the phone. WhatsApp sharing and the voice assistant need internet.

Which languages?
13: English, Hindi, Odia, Bengali, Telugu, Tamil, Kannada, Malayalam, Marathi, Gujarati, Punjabi, Assamese and Urdu. Odia and Hindi are complete.

What if he forgets his password?
He can reset it with help from RB Technologies.

Is it hard to learn?
No. Big buttons, colours and a voice assistant. First-time smartphone users manage it.
